

## ABOUT ICS

ICS is a well-established company providing a variety of services including powder coating, stove enamelling and shot blasting metal goods, as well as having our own fabrication workshop. We also specialise in refinishing bike frames and parts to our usual very high standards. We would like to take this opportunity to thank all our present customers and welcome all future customers old or new.

### POINTS TO REMEMBER WHEN RE-ASSEMBLING YOUR BIKE

1. Put masking tape on the areas of tubing, which do not require painting. It can be peeled off when everything is assembled.
2. If the frame does get scratched for any reason, rub the marked area down with 1200 grade rubbing down paper, then t-cut, and polish it to restore the shiny surface.
3. Give the frame a good wax polish, which will help protect the glossy finish.
4. Brush waxoyl or some other protective compound into corners and recesses of the frame. This is where moisture becomes trapped causing rust to start.

### OPENING HOURS:

**Monday - Thursday 8am – 5 pm Friday 7am - 1pm.**

**Units 1 & 2 Simmons Place.  
Kingsmill Industrial Estate.  
Cullompton. Devon. EX15 1PB  
p: 01884 - 34506  
f: 01884 - 35878**
